Reviewer General Comments and Suggestions (mandatory written feedback):
The topic sounds interesting, the research aspect of the project is well laid out, ut it is difficult to see the process of investigation from the abstract. There was no bibliography.

Reviewer General Comments and Suggestions (mandatory written feedback):

While the project seems to have general merit, this is not an abstract. This submission reads more as an oversimplified advertisement for a reductive practice/project delivery idea. This reviewer highly recommends checking the 'architecture as savior' attitude, and revising language such as "underdeveloped nations" and instead focus on constructing an argument for the work at hand. Show evidence to support the claims made. Follow standard abstract formatting rules.
